DEVELOPMENT STRATEGY

Our mission

As a backbone transport company in Kazakhstan, we meet the needs of the national economy and society in the transportation of freight and passengers and contribute to the development of the country's transit potential by providing competitive transport and logistics services.

Our vision

We are a leading company providing transportation services that are based on the principles of economic efficiency, safety, social and environmental responsibility. We use advanced management methods, innovative technologies and digital solutions to provide our customers with a high level of service.

Our strategic goals

1. Improving the efficiency of rail transport
2. Development of transit traffic
3. Increasing customer satisfaction
4. Digitalization
5. Implementation of ESG principles
6. Ensuring the safety of train traffic
